Methodology

This poll was conducted between January 14th and 15th, 2020 using a blend of automated calls to landlines and text message surveys to cell phones. In all, 600 interviews were achieved among registered voters in the second congressional district of Alabama, who are likely to vote in the 2020 March primary election. 240 of these responses came from cell phones. The Margin of Error for this survey is +/- 3.99% at a Confidence Interval of 95%
